PROFESSIONAL SUMMARY

BSc IT student graduate with hands-on fiber-optic deployment experience at Optimax Group Limited. Self-taught full-stack developer transitioning into modern front-end while maintaining strong Python Programming and machine-learning skills. Passionate about building fast, accessible web experiences and real world projects

Results-driven ISP Technician with specialized experience in fiber optics (GPON active & passive), installation, termination, splicing, fault resolution, and maintenance in a fast-paced ISP environment. Proven expertise in achieving SLA compliance, zero safety incidents, and seamless NOC coordination. Eager to support Fireside Group's network infrastructure growth with strong problem-solving and technical hands-on skills.

PROFESSIONAL EXPERIENCE

Network Technician – Optimax Group Limited Nairobi, Kenya

- Install and terminate fiber optic cables daily, including splicing at fiber distribution hubs, OLT/ONT configuration, and ensuring optimal optical power levels using meters and OTDR traces.
- Resolve Loss of Service (LOS) issues promptly, perform fiber link faulting, SLA monitoring, and update/resolve tickets with clear documentation for NOC handover.
- Deploy and maintain GPON networks (active & passive), Huawei AR routers, MPLS links, and Cisco equipment across residential and commercial sites.
- Conduct proactive preventive maintenance and rapid reactive interventions to ensure reliable service uptime and client satisfaction.
- Strictly observe Health & Safety guidelines with full EHS compliance – zero accidents, zero community complaints, and zero repeat faults on all handled sites.
- Educate clients on basic troubleshooting procedures, answer fiber-related queries, and collaborate with team members, field supervisors, and NOC personnel.
- Manage full material accountability, site documentation, and accurate reporting using internal tools and Excel.
- Perform LOS surveys, and train junior technicians on best practices.

EDUCATION

B. Sc. Information Technology (Second Class Honours – Upper Division) Jomo Kenyatta University of Agriculture and Technology (JKUAT) 2025

Diploma in Information Technology – JKUAT, 2023

Certificate in Information Technology – JKUAT, 2021

ADDITIONAL CERTIFICATIONS

- Network Essentials (JKUAT)
- Ethical Hacking (JKUAT)
- Introduction to Data Science (JKUAT)
- Ongoing: Data Analysis Professional Course (Online)

TECHNICAL SKILLS

- Python Developer(web development, machine learning, Database development)
- Fiber Optics: GPON (Active & Passive), splicing, termination, OTDR testing, optical power metering, fault location
- Networking: Huawei AR routers, MPLS, Cisco IOS, VLANs, basic routing/switching
- Wireless Integration: MikroTik, Ubiquiti, Huawei, LOS surveys
- Tools: Winbox, Huawei iMaster, ping/plotter, Wireshark basics
- Programming & Projects: Python, Machine Learning (House & Car Price Prediction models – github.com/bammpy), Web Development, Databases (MySQL)
- Other: Health & Safety compliance, working at heights, Microsoft Office, Google Workspace

KEY PERSONAL PROJECTS

- House Price Prediction Desktop Application (Python + Scikit-learn)
- Car Price Prediction System (Live on GitHub: github.com/bammpy)
- Personal Portfolio Website awaiting hosting to the internet

ADDITIONAL STRENGTHS

- Strong problem-solving and technical expertise in fiber handling & maintenance
- Team player with excellent client communication
- Ready for field work across Nairobi and beyond
- Clean safety record | Fast learner | Proactive attitude
